PROFESSIONAL SUMMARY

Software Engineer with **5+ years of experience** building enterprise applications, workflow automation platforms, and API-driven systems with **Python/Django**. Spans backend and frontend development, third-party integrations, and deployment, with a growing focus on **AI/LLM-enabled applications** — extending into **RAG, LLM systems, and AI backend engineering**.

TECHNICAL SKILLS

AI & LLM

RAG LLM Integration OpenAI API Embeddings Vector Databases OCR Structured Extraction LangChain
LangGraph Hugging Face

BACKEND

Python Django Django REST Framework FastAPI Celery Redis REST APIs Third-Party API Integration
XML / JSON APIs

FRONTEND & MOBILE

JavaScript jQuery Vue.js HTML5 CSS3 Bootstrap Flutter Dart

DATA & SEARCH

PostgreSQL MySQL SQLite Elasticsearch ChromaDB

CLOUD & SECURITY

Docker DigitalOcean Nginx Gunicorn GitHub Actions CI/CD LDAP / SSO VAPT Remediation

TOOLS

Postman PyCharm VS Code Claude Code Codex OpenCode Ubuntu

PROFESSIONAL EXPERIENCE

DataFort Limited · Dhaka, Bangladesh

Dec 2022 – Present

Software Engineer (E-12)

Jul 2024 – Present

Mid-Level Software Engineer (E-13)

Dec 2022 – Jul 2024

Robo2mation — Workflow Automation & Document Management Platform

Digitizes business processes, automates approvals, and manages documents through configurable enterprise workflows.

- Build backend services and REST APIs with **Python, Django, Django REST Framework, and PostgreSQL**, supporting workflow execution, data management, frontend features, and third-party **REST, XML, and JSON integrations**.
- Develop configurable **no-code capabilities** — dynamic eForms, Master Tables, business rules, and API integrations — allowing new client requirements to be delivered through configuration instead of repeated custom development.
- Extend workflow and document-management capabilities across approval routing, task assignment, delegation, process tracking, uploads, metadata, versioning, sharing, and **Elasticsearch**-based search.
- Deliver full-stack features with Django and **JavaScript/jQuery**, including form builders, dashboards, document screens, reporting, and background processing with **Celery and Redis**.
- Implement enterprise access control and intelligent automation through role-based permissions, **LDAP/SSO**, VAPT remediation, and **AI/LLM-driven document processing and structured data extraction**.
- Diagnose and resolve complex production issues affecting stability and performance; collaborate with **DevOps** on deployments and migrations, contribute to **Flutter/Dart** mobile features, and support junior developers through code reviews and debugging guidance.

PyronLab · Dhaka, Bangladesh

Oct 2020 – Nov 2022

Junior Software Engineer

- Developed and maintained commercial web applications with **Python, Django, JavaScript, jQuery, and Vue.js**, covering backend business logic, REST APIs, frontend interfaces, production fixes, and feature delivery for **nanaya.co, Imarat.com.bd, PyronConverter, and ChangeUnit**.
- Deployed and supported applications on **DigitalOcean** with Linux, Nginx, and Gunicorn, improving reliability through debugging, refactoring, production configuration, and runtime troubleshooting.

PERSONAL PROJECTS

EduNova — AI-Powered Learning Platform

FastAPI · PostgreSQL · RAG · LLM

Building a FastAPI/PostgreSQL platform with RAG-based book assistance, LLM question generation, and role-based access.

Mail2Record — AI Email-to-Structured-Data Automation

Django · Local LLM · Automation

Built a workflow that extracts purchase-order and shipment data from emails into reviewable records and Excel/CSV exports.

WorkTracker — Internal Task & Timeline Tracker

Django · Workflow Logic · Productivity

Built and actively use an internal tool tracking task timelines, pause/resume work, off-days, interruptions, and recalculated finish dates.

EDUCATION & CERTIFICATION

B.Sc. in Computer Science & Engineering

Dec 2019

United International University, Dhaka · Multiple merit-based scholarships

Python and Django for Web and API Development

2020

CDIP — Professional Certificate (4-month program)

Languages: Bengali — Native · English — Professional Working Proficiency (CEFR B2)
